WARP 9, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED
MARCH 31, 2015

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all normal recurring adjustments considered necessary for a fair presentation have been included. Operating results for the nine months ended March 31, 2015 are not necessarily indicative of the results that may be expected for the year ending June 30, 2015. For further information refer to the financial statements and footnotes thereto included in the Company's Form 10K for the year ended June 30, 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Warp 9, Inc. is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These

accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

The Consolidated Financial Statements include the Company and its majority-owned subsidiary ("Warp 9, Inc., a Delaware corporation"). All significant inter-company transactions are eliminated in consolidation.

ACCOUNTS RECEIVABLE

The Company extends credit to its customers, who are located nationwide. Accounts receivable are customer obligations due under normal trade terms. The Company performs continuing credit evaluations of its customers' financial condition. Management reviews accounts receivable on a regular basis, based on contracted terms and how recently payments have been received to determine if any such amounts will potentially be uncollected. The Company includes any balances that are determined to be uncollectible in its allowance for doubtful accounts. After all attempts to collect a receivable have failed, the receivable is written off. The balance of the allowance account at March 31, 2015 and June 30, 2014 are \$4,808 and \$24,907 respectively.

REVENUE RECOGNITION

The Company recognizes income when the service is provided or when product is delivered. We present revenue, net of customer incentives. Most of the income is generated from professional services and site development fees.

We provide online marketing services that we purchase from third parties. The gross revenue presented in our statement of operations is in accordance with ASC 605-45.

We also offer professional services such as development services. The fees for development services with multiple deliverables constitute a separate unit of accounting in accordance with ASC 605-25, which are recognized as the work is performed.

Upfront fees for development services or other customer services are deferred until certain implementation or contractual milestones have been achieved. The deferred revenue as of March 31, 2015 and June 30, 2014 was \$5,850 and \$3,300, respectively.

For the quarter ended, March 31, 2015, monthly recurring fees for mobile and desktop e-commerce development account for 14% of the Company's total revenues, professional services account for 82% and the remaining 4% of total revenues are from resale of third party products and services.

For the quarter ended, March 31, 2014, monthly recurring fees for mobile and desktop e-commerce development account for 34% of the Company's total revenues, professional services account for 64% and the remaining 2% of total revenues are from resale of third party products and services.

-7-

WARP 9, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED
MARCH 31, 2015

STOCK-BASED COMPENSATION

The Company addressed the accounting for share-based payment transactions in which an enterprise receives employee services in exchange for either equity instruments of the enterprise or liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. The transactions are accounted for using a fair-value-based method and recognized as expenses in our statement of income. There was no material impact on the Company's financial statement of operations.

Stock-based compensation expense recognized during the period is based on the value of the portion of stock-based payment awards that is ultimately expected to vest. Stock-based compensation expense recognized in the consolidated statement of operations during the quarter ended March 31, 2015, included compensation expense for the stock-based payment awards granted prior to, but not yet vested, as of March 31, 2015 based on the grant date fair value estimated. Stock-based compensation expense recognized in the statement of operations for the quarter ended March 31, 2015 is based on awards ultimately expected to vest, or has been reduced for estimated forfeitures. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The stock-based compensation expense recognized in the consolidated statements of operations during the nine months ended March 31, 2015 and 2014 was \$60,187 and \$17,356, respectively.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Management reviewed accounting pronouncements issued during the three months ended March 31, 2015, and no pronouncements were adopted during the

period.

3. LIQUIDITY AND OPERATIONS

The Company had net losses of \$1,003,234 and \$266,639 for the nine months periods ended March 31, 2015 and 2014, respectively, and net cash used in operating activities of \$561,302 and \$111,876 for the same periods, respectively.

While Warp 9 expects that its capital needs in the foreseeable future may be met by cash-on-hand and projected positive cash-flow, there is no assurance that the Company will be able to generate enough positive cash flow or have sufficient capital to finance its growth and business operations, or that such capital will be available on terms that are favorable to the Company or at all. In the current financial environment, it could become difficult for the Company to obtain equipment leases and other business financing. There is no assurance that Warp 9 would be able to obtain additional working capital through the private placement of common stock or from any other source.

GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis of accounting, which contemplates continuity of operations, realization of assets and liabilities and commitments in the normal course of business. The accompanying financial statements do not reflect any adjustments that might result if the Company is unable to continue as a going concern. The Company does not generate significant revenue, and has negative cash flows from operations, which raise substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern and appropriateness of using the going concern basis is dependent upon, among other things, an additional cash infusion. The Company has obtained funds from its shareholders since its inception through March 31, 2015. It is management's plan to generate additional working capital from increasing sales from its desktop and Warp 9 Mobile service offerings, and then continue to pursue its business plan and purposes.

4. CONVERTIBLE NOTES PAYABLE

On March 25, 2013, the Company entered into a convertible promissory note (the "March 2013 Note") in the amount of \$100,000, at which time an initial advance of \$50,000 was received to cover operational expenses. The lender advanced an additional \$20,000 on April 16, 2013, an additional \$15,000 on May 1, 2013 and an additional \$15,000 on May 16, 2013, for a total draw of \$100,000. The terms of the March 2013 Note allow the lender to convert all or part of the outstanding balance plus accrued interest, at any time after the effective date, at a conversion price of the lower of (a) \$0.015 per share, or (b) 50% of the lowest trade price of Common Stock recorded on any trade day after the effective date of the agreement. The March 2013 Note bears interest at a rate of 10% per year and matures on September 25, 2015. On May 23, 2014, the lender converted \$17,000 of the \$100,000 outstanding balance and accrued interest of \$1,975 into 4,743,699 shares of common

stock. On October 14, 2014, the lender converted \$17,000 of the \$83,000 outstanding balance and accrued interest of \$2,645 into 4,911,370 shares of common stock. The principal balance of the March 2013 Note, as of March 31, 2015 is \$66,000.

On May 16, 2013, the Company entered into a convertible promissory note (the "May 2013 Note") in the amount of \$100,000, at which time an initial advance of \$10,000 was received to cover operational expenses. The lender advanced an additional \$20,000 on June 3, 2013, an additional \$25,000 on July 2, 2013, an additional \$10,000 on September 3, 2013 and an additional \$35,000 on February 18, 2014, for a total draw of \$100,000. The terms of the May 2013 Note allow the lender to convert all or part of the outstanding balance plus accrued interest, at any time after the effective date, at a conversion price of the lower of (a) \$0.015 per share, or (b) 50% of the lowest trade price of Common Stock recorded on any trade day after the effective date of the agreement. The Company recognized a discount on the May 2013 Note in the amount of \$20,000, due to the beneficial conversion feature. As of March 31, 2015, the discount balance was zero. The May 2013 Note bears interest at a rate of 10% per year and matures on November 16, 2015.

On March 4, 2014, the Company entered into a convertible promissory note (the "March 2014 Note") in the amount of \$250,000, at which time an initial advance of \$25,000 was received to cover operational expenses. The lender advanced an additional \$20,000 on March 17, 2014 and an additional \$30,000

on April 2, 2014, for a total draw of \$75,000. The terms of the March 2014 Note allow the lender to convert all or part of the outstanding balance plus accrued interest, at any time after the effective date, at a conversion price of the lower of (a) \$0.012 per share, or (b) 50% of the lowest trade price of Common Stock recorded on any trade day after the effective date of the agreement. The Company recorded a debt discount related to the beneficial conversion feature of the March 2014 Note, along with derivative liabilities. This discount is recognized over 18 months, beginning on the date of each tranche payment. For the quarter ended March 31, 2015, the Company included \$12,304 in interest expense related to the discount. As of March 31, 2015, the discount balance was \$34,625. The March 2014 Note bears interest at a rate of 10% per year and matures 18 months from the effective date of each advance.

On April 16, 2014, the Company entered into a convertible promissory note (the "April 2014 Note") in the amount of \$300,000, at which time an initial advance of \$40,000 was received to cover operational expenses. The lender advanced an additional \$55,000 on April 30, 2014, an additional \$40,000 on May 16, 2014, an additional \$40,000 on June 2, 2014, an additional \$35,000 on June 30, 2014, an additional \$40,000 on July 18, 2014, and an additional \$50,000 on August 15, 2014, for a total draw of \$300,000. The terms of the April 2014 Note allow the lender to convert all or part of the outstanding balance plus accrued interest, at any time after the effective date, at a conversion price of the lower of (a) \$0.012 per share, or (b) 50% of the lowest trade price of Common Stock recorded on any trade day after the effective date of the agreement. The Company recorded a debt discount related to the conversion feature of the April 2014 Note, along with derivative liabilities. This discount is recognized over 18 months, beginning on the date of each tranche payment. For the quarter ended March 31, 2015, the Company included \$49,231 in interest expense related to the discount. As of March 31, 2015, the discount balance was \$152,438. The April 2014 Note bears interest at a rate of 10% per year and matures 18 months from the effective date of each advance.

On September 5, 2014, the Company entered into a convertible promissory note (the "September 2014 Note") in the amount of \$250,000, at which time an initial advance of \$40,000 was received to cover operational expenses. The lender advanced an additional \$10,000 on September 17, 2014, an additional \$30,000 on October 1, 2014, an additional \$40,000 on October 16, 2014, an additional \$40,000 on October 31, 2014, an additional \$40,000 on November 18, 2014 and an additional \$50,000 on December 16, 2014, for a total draw of \$250,000. The terms of the September 2014 Note allow the lender to convert all or part of the outstanding balance plus accrued interest, at any time after the effective date, at a conversion price of the lower of (a) \$0.015 per share, or (b) 50% of the lowest trade price of Common Stock recorded on any trade day after the effective date of the agreement. The Company recorded a debt discount related to the conversion feature of the April 2014 Note, along with derivative liabilities. For the quarter ended March 31, 2015, the Company included \$41,097 in interest expense related to the discount. As of March 31, 2015, the discount balance was \$178,924. The September 2014 Note bears interest at a rate of 10% per year and matures 18 months from the effective date of each advance.

On January 5, 2015, the Company entered into a convertible promissory note (the "January 2015 Note") in the amount of \$250,000, at which time an initial advance of \$30,000 was received to cover operational expenses. The lender advanced an additional \$45,000 on January 20, 2015, an additional \$45,000 on February 2, 2015, an additional \$35,000 on February 16, 2015, an additional \$30,000 on March 2, 2015, an additional \$30,000 on March 17, 2015, for a total draw of \$220,000. The terms of the January 2015 Note allow the lender to convert all or part of the outstanding balance plus accrued interest, at any

time after the effective date, at a conversion price of the lower of (a) \$0.015 per share, or (b) 50% of the lowest trade price of Common Stock recorded on any trade day after the effective date of the agreement. The Company recorded a debt discount related to the conversion feature of the January 2015 Note, along with derivative liabilities. For the quarter ended March 31, 2015, the Company included \$19,555 in interest expense related to the discount. As of March 31, 2015, the discount balance was \$200,445. The January 2015 Note bears interest at a rate of 10% per year and matures 18 months from the effective date of each advance.

ASC Topic 815 provides guidance applicable to convertible debt issued by the Company in instances where the number into which the debt can be converted is not fixed. For example, when a convertible debt converts at a discount to market based on the stock price on the date of conversion, ASC Topic 815 requires that the embedded conversion option of the convertible debt be bifurcated from the host contract and recorded at their fair value. In accounting for derivatives under accounting standards, the Company

recorded a liability of \$2,763,927 representing the estimated present value of the conversion feature considering the historic volatility of the Company's stock, and a discount of \$566,432 representing the imputed interest associated with the embedded derivative. The discount is amortized over the life of the convertible debt, and the derivative liability is adjusted periodically according to stock price fluctuations. At the time of conversion, any remaining derivative liability will be charged to additional paid-in capital.

For purpose of determining the fair market value of the derivative liability, the Company used Black Scholes option valuation model. The significant assumptions used in the Black Scholes valuation of the derivative are as follows:

Stock price on the valuation dates	\$	0.015
Conversion price for the debt	\$	0.004 - 0.0065
Dividend yield		0%
Months to maturity		6 months - 18 months
Risk free rate		0.22% - 0.49%
Expected volatility		104.69% - 144.55%

Following is the five year maturity schedule for our convertible notes payable:

Year ended June 30,	Principal	Discount	Net Book Value
2015	\$ -	\$ -	\$ -
2016	\$ 861,814	\$ (365,987)	\$ 495,827
2017	\$ 223,070	\$ (200,445)	\$ 22,625
2018	\$ -	\$ -	\$ -
2019	\$ -	\$ -	\$ -

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities are carried at cost, which approximates their fair value, due to the relatively short maturity of these instruments. As of March 31, 2015 and 2014, the Company's capital lease obligations and notes payable have stated borrowing rates that are consistent with those currently available to the Company and, accordingly, the Company believes the carrying value of these debt instruments approximates their fair value.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 established a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- o Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;

-10-

WARP 9, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED
MARCH 31, 2015

- o Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- o Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

We measure certain financial instruments at fair value on a recurring basis. Assets and liabilities measured at fair value on a recurring basis are as follows at March 31, 2015:

5. RELATED PARTIES

During the nine months ended March 31, 2015, there were no related party transactions.

6. CAPITAL STOCK

At March 31, 2015 and 2014, the Company's authorized stock consists of 495,000,000 shares of common stock, par value \$0.001 per share. The Company is also authorized to issue 5,000,000 shares of preferred stock, par value of \$0.001 per share. The rights, preferences and privileges of the holders of the preferred stock will be determined by the Board of Directors prior to issuance of such shares.

7. STOCK OPTIONS AND WARRANTS

STOCK OPTIONS

Our 2003 Stock Option Plan for Directors, Officers, Employees and Key Consultants (the "2003 Plan") authorizing the issuance of up to 5,000,000 shares of our common stock pursuant to the grant and exercise of up to 5,000,000 stock options terminated upon the expiration of the remaining options granted under the 2003 Plan on May 24, 2014. In the future, we plan to establish a new management stock option plan pursuant to which stock options may be authorized and granted to our executive officers, directors, employees and key consultants. We expect to authorize up to 10% of our issued and outstanding Common Stock for future issuance under such plan. We believe that stock option awards motivate our employees to work to improve our business and stock price performance, thereby further linking the interests of our senior management and our stockholders. The board considers several factors in determining whether awards are granted to an executive officer, including those previously described, as well as the executive's position, his or her performance and responsibilities, and the amount of options, if any, currently held by the officer and their vesting schedule. Our policy prohibits backdating options or granting them retroactively. As of March 31, 2015, 91,000,000 stock options granted outside of the Plan were outstanding.

The weighted average remaining contractual life of options outstanding as of March 31, 2015 was as follows:

Weighted

Exercise prices	Number of options outstanding	Average remaining contractual life (years)
\$ 0.013	63,000,000	6.85
\$ 0.013	15,000,000	6.98
\$ 0.005	12,500,000	4.37
\$ 0.004	500,000	6.54

8. SUPPLEMENTAL STATEMENT OF CASH FLOWS INFORMATION

During the period ended March 31, 2015, there were no non-cash financing activities. During the period ended December 31, 2014, we had the following non-cash financing activities:

- o Decreased notes payable by \$19,645, increased common stock by \$4,911 and additional paid-in capital by \$54,025 for common shares as a result of a partial conversion of the March 2013 Note.

9. SUBSEQUENT EVENTS

Management has evaluated subsequent events according to the requirements of ASC TOPIC 855, and has reported the following events:

On April 2, 2015 and April 17, 2015, the Company received advances in the amounts of \$20,000 and \$10,000, respectively, on the January 2015 Note.

On May 4, 2015, the Company entered into a convertible promissory note (the "May 2015 Note") in the amount of \$250,000, at which time an initial advance of \$33,000 was received to cover operational expenses. The terms of the May 2015 Note allow the lender to convert all or part of the outstanding balance plus accrued interest, at any time after the effective date, at a conversion price of the lower of (a) \$0.015 per share, or (b) 50% of the lowest trade price of Common Stock recorded on any trade day after the effective date of the agreement. The May 2015 Note bears interest at a rate of 10% per year and matures 18 months from the effective date of each advance.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY STATEMENTS

This Form 10-Q contains financial projections and other "forward-looking statements," as that term is used in federal securities laws, about Warp 9, Inc.'s ("Warp 9," "we," "us," or the "Company") financial condition, results of operations, and business. These statements include, among others:

- o statements concerning the potential for benefits that Warp 9 may experience from its business activities and certain transactions it contemplates or has completed; and
- o statements of Warp 9's expectations, future plans and strategies, anticipated developments, and other matters that are not historical facts. These statements may be made expressly in this Form 10-Q. You can find many of these statements by looking for words such as "believes," "expects," "anticipates," "estimates," or similar expressions used in this Form 10-Q. These forward-looking statements are subject to numerous assumptions, risks, and uncertainties that may cause the Company's actual results to be materially different from any future results expressed or implied by the Company in those statements. The most important facts that could prevent the Company from achieving its stated goals include, but are not limited to, the following:
 - (a) volatility or decline of the Company's stock price;
 - (b) potential fluctuation in quarterly results;
 - (c) failure of the Company to earn revenues or profits;
 - (d) inadequate capital to continue or expand its business, and inability to raise additional capital or financing to implement its business plans;
 - (e) failure to further commercialize its technology or to make sales;
 - (f) reduction in demand for the Company's products and services;
 - (g) rapid and significant changes in markets;
 - (h) litigation with or legal claims and allegations by outside parties;
 - (i) insufficient revenues to cover operating costs;
 - (j) aspects of the Company's business are not proprietary and in general the Company is subject to inherent competition;
 - (k) further dilution of existing shareholders' ownership in Company;
 - (l) uncollectible accounts and the need to incur expenses to collect amounts owed to the Company; and
 - (m) lack of an Audit Committee and a sufficient number of independent directors.

There is no assurance that the Company will be profitable. The Company may not be able to successfully develop, manage, or market its products and services. The Company may not be able to attract or retain qualified executives and technology personnel. The Company may not be able to obtain customers for

its products or services. The Company's products and services may become obsolete. Government regulation may hinder the Company's business. Additional dilution in outstanding stock ownership may be incurred due to the issuance of more shares, warrants and stock options, the exercise of outstanding warrants and stock options.

Because these statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by forward-looking statements. The Company cautions you not to place undue reliance on these statements, which speak only as of the date of this Form 10-Q. The cautionary statements contained or referred to in this section should be considered in connection with any subsequent written or oral forward-looking statements that the Company or persons acting on its behalf may issue. The Company does not undertake any obligation to review or confirm analysts' expectations or

-14-

estimates or to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of this Form 10-Q or to reflect the occurrence of unanticipated events.

The following discussion should be read in conjunction with our condensed consolidated financial statements and notes to those statements. In addition to historical information, the following discussion and other parts of this quarterly report contain forward-looking information that involves risks and uncertainties.

CURRENT OVERVIEW

We are a provider of mobile and e-commerce solutions for midsize online sellers in the retail and business to business ("B2B") industries. Our solutions and services are designed to help multi-channel retailers maximize digital commerce revenues by applying our technologies and solutions for mobile e-commerce, desktop e-commerce, e-mail marketing, social media, and other digital avenues. Offered as an outsourced and fully managed Software-as-a-Service ("SaaS") model, our solutions allow customers to focus on their core business, rather than technical implementations and software and hardware architecture, design, and maintenance. We also offer professional services to our clients which include graphic design, store management, new feature development, promotion management, search engine optimization ("SEO"), social media management, merchandizing, integration to third party payment processing and fulfillment systems, analytics, custom reporting, and strategic consultation.

We believe our products and services allow our clients to lower costs and focus on promoting and marketing their brand, product line, and website while leveraging the investments we have made in technology and infrastructure to operate a dynamic digital presence.

A portion of the Company's revenues are from monthly recurring fees for mobile and desktop development. During the quarter ended March 31, 2015, these products accounted for approximately 14% of our gross revenue. During the quarter ended March 31, 2015, professional services accounted for approximately 82% of our gross revenue.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations, including the discussion on liquidity and capital resources, are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, management re-evaluates its estimates and judgments, particularly those related to the determination of the estimated recoverable amounts of trade accounts receivable, impairment of long-lived assets, revenue recognition, and deferred tax assets. We believe the following critical accounting policies require more significant judgment and estimates used in the preparation of the financial statements.

We maintain an allowance for doubtful accounts for estimated losses that may arise if any of our customers are unable to make required payments. Management specifically analyzes the age of customer balances, historical bad debt experience, customer credit-worthiness, and changes in customer payment terms when making estimates of the uncollectability of our trade accounts receivable balances. If we determine that the financial conditions of any of our customers has deteriorated, whether due to customer specific or general economic issues, increases in the allowance may be made. Accounts receivable are written off when all collection attempts have failed.

We follow the provisions of ASC 605-10-25, that four conditions must be met before revenue can be recognized: (i) there is persuasive evidence that an arrangement exists, (ii) delivery has occurred or service has been rendered, (iii) the price is fixed or determinable, and (iv) collection is reasonably

assured.

Income taxes are accounted for under the asset and liability method. Under this method, to the extent that we believe that the deferred tax asset is not likely to be recovered, a valuation allowance is provided. In making this determination, we consider estimated future taxable income and taxable timing differences expected in the future. Actual results may differ from those estimates.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities are carried at cost, which approximates their fair value, due to the relatively short maturity of these instruments. As of March 31, 2015 and 2014, the Company's capital lease

-15-

obligations and notes payable have stated borrowing rates that are consistent with those currently available to the Company and, accordingly, the Company believes the carrying value of these debt instruments approximates their fair value.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 established a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- o Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- o Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- o Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

We measure certain financial instruments at fair value on a recurring basis. Assets and liabilities measured at fair value on a recurring basis are as follows at March 31, 2015:

	Total	(Level 1)	(Level 2)	(Level 3)

-16-

RESULTS OF OPERATIONS FOR THE NINE MONTHS ENDED MARCH 31, 2015, COMPARED TO THE NINE MONTHS ENDED MARCH 31, 2014.

REVENUE

Total revenue for the nine months ended March 31, 2015 decreased by \$404,900 to \$388,634, compared to \$793,534 for the nine months ended March 31, 2014. The decrease was primarily due to a decline of our mobile website development revenue during the current period. During the prior year, the Company maintained numerous mobile sites for Moovweb, which added significant mobile revenue. However, due to a strategy change at Moovweb, that mobile maintenance work was re-directed to other sources, contributing to the lower current year mobile revenue.

COST OF REVENUE

The cost of revenue for the nine months ended March 31, 2015 decreased by \$156,072 to \$43,764, compared to \$199,836 for the nine months ended March 31, 2014. The overall decrease was primarily due to a change in our sourcing for development projects. Outsourced contractor expenses are reported as a cost of revenue and in-house employees are reported in salary expense, a component of selling, general and administrative expenses. During the quarter, the Company primarily used in-house employees to produce mobile and desktop websites, which shifted the expense from cost of revenue to selling, general and administrative.

SELLING, GENERAL, AND ADMINISTRATIVE EXPENSES

Selling, general, and administrative ("SG&A") expenses for the nine months ended March 31, 2015 increased by \$145,433 to \$932,963, compared to \$787,530 for the nine months ended March 31, 2014. The overall increase in SG&A expenses was primarily due to sourcing for development projects, as noted above in the explanation of the change in cost of revenue.

RESEARCH AND DEVELOPMENT

Research and development expenses for the nine months ended March 31, 2015 and March 31, 2014 were both zero.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization expenses for the nine months ended March 31, 2015 decreased by \$38,246 to \$3,428, compared to \$41,674 for the nine months ended March 31, 2014. The decrease was due to the Company decommissioning its data center and disposing of the data center equipment in the prior period, some of which had not been fully depreciated.

OTHER INCOME AND EXPENSE

Total other income (expense) for the nine months ended March 31, 2015 decreased by \$339,977 to net other expense of \$349,926, compared to net other expense of \$9,949 for the nine months ended March 31, 2014. The increase was primarily due to gain on extinguishment of debt and gain on the changes in derivative liability.

NET INCOME/(LOSS)

The consolidated net loss for the nine months ended March 31, 2015 was (\$1,003,234), compared to the consolidated net loss of (\$266,639) for the nine months ended March 31, 2014. The increase in net loss for the period was primarily due to a reduction in revenue and increases in the derivative liability and interest expense.

LIQUIDITY AND CAPITAL RESOURCES

The Company had a net working capital deficit (i.e. the difference between current assets and current liabilities) of (\$3,230,547) at March 31, 2015 compared to a net working capital deficit of (\$2,416,687) at June 30, 2014. The increase in net working capital deficit at March 31, 2015 was primarily due to an increase in derivative liability and additional borrowings.

Cash flow used in operating activities was (\$561,302) for the nine months ended March 31, 2015, compared to cash flow used in operating activities of (\$111,876) for the nine months ended March 31, 2014. The increase in cash flow used in operating activities of \$449,426 was primarily due to a gain on

-17-

settlement of debt and a decrease in net income, partially offset by loss on change in derivative liability and amortization of debt discount.

Cash flow used in investing activities was (\$2,355) for the nine months ended March 31, 2015, compared to cash flow provided by investing activities of \$6,284 for the nine months ended March 31, 2014. The increase in cash flow used in investing activities of \$8,639 during the current period, was primarily due to proceeds from the sale of fixed assets in the prior year. No such sale occurred during the current year.

Cash flow provided by financing activities was \$560,000 for the nine months ended March 31, 2015 compared to \$115,000 for the nine months ended March 31, 2014. The increase in cash flow provided in financing activities of \$445,000 was due to proceeds received by the Company from a convertible promissory note.

While we expect that our capital needs in the foreseeable future will be met by cash-on-hand and existing cash flow, there is no assurance that we will generate any or sufficient positive cash flows, or have sufficient capital, to finance our growth and business operations, or that such capital will be available on terms that are favorable to us or at all. The Company has recently been incurring operating losses and experiencing negative cash flow. In the current financial environment, it could become difficult for the Company to obtain business leases and other equipment financing. There is no assurance that we would be able to obtain additional working capital through the private placement of common stock or from any other source.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not Applicable.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by Warp 9 in the reports that it files under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer that it files under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer and principal financial officers, or persons performing similar functions as appropriate to allow timely decisions regarding required disclosure. The Company's Chairman, Chief Executive Officer, and Chief Financial Officer are responsible for establishing and maintaining disclosure controls and procedures for the Company.

Management has evaluated the effectiveness of the Company's disclosure controls and procedures as of March 31, 2015 (under the supervision and with the participation of the Company's Chairman, Chief Executive Officer, and Chief Financial Officer) pursuant to Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. As part of such evaluation, management considered the matters discussed below relating to internal control over financial reporting. Based on this evaluation, the Company's Chairman, Chief Executive Officer, and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective as of March 31, 2015.

INTERNAL CONTROL OVER FINANCIAL REPORTING

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934). The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes of accounting principles generally accepted in the United States. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance of achieving their control objectives. Furthermore, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate due to change in conditions, or the degree of compliance with the policies or procedures may deteriorate. After evaluating the Company's internal controls over financial reporting, the

concluded that the internal controls over financial reporting are effective as of March 31, 2015.

CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING

There have been no changes in the Company's internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

EXHIBIT 31.1

CERTIFICATION

EXHIBIT 31.1

CERTIFICATION

I, Andrew Van Noy, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Warp 9, Inc.
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report.
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report.
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (of persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
