Item 2. Management's Discussion and Analysis or Plan of Operation.

LIQUIDITY AND CAPITAL RESOURCES

The Company had \$0 cash capital at the end of the period and current liabilities exceeded current assets by \$13,215. The Company will be forced to either borrow or make private placements of stock in order to fund operations. No assurance exists as to the ability to achieve loans or make private placements of stock.

Results of Operations for the Quarter Ended June 30, 2001 compared to same period in 2000.

The Company had no revenue or operations for the period. The Company incurred general and administrative expenses in the period in 2001 of \$5,000 for legal fees compared to none in 2000. The Company had loss on operations for the period in 2001 of \$(5,000) and none in the quarter in 2000.

Results of Operations for Nine Month Period Ended June 30, 2001 compared to same period in 2000.

The Company had no revenues or operations in the nine month period ended June 30, 2001. The Company incurred \$8,000 in general and administrative expenses (legal and audit fees) in 2001 in the period compared to no expenses for the period in 2000. The loss was (\$8,000) in 2001 and \$0 in 2000 in the nine month period. The loss per share was nominal in the period in 2001 and none in the period in 2000.

The trend of operating losses can be expected to continue until and unless the company acquires or merges with a profitable business.

(a) Plan of Operation. JNS Marketing, Inc. (the "Company") intends to seek to acquire assets or shares of an entity actively engaged in business which generates revenues, in exchange for its securities. The Company has no particular acquisitions in mind and has not entered into any negotiations regarding such an acquisition. As of the date of this report, the Company has no plans, arrangements, understandings or commitments with respect to any potential merger or acquisition, nor is the Company engaged in negotiations with respect

to such matter.

If required to so do under relevant law, management of the Company will seek shareholder approval of a proposed merger or acquisition via a Proxy Statement. However, such approval would be assured where management supports such a business transaction because management presently controls sufficient shares of the Company to effectuate a positive vote on the proposed transaction. Further, a prospective transaction may be structured so that shareholder approval is not required, and such a transaction may be effectuated by the Board of Directors without shareholder approval. While any disclosure which may be provided to shareholders may include audited financial statements of such a target entity, there is no assurance that such audited financial statements will be available. The Board of Directors does intend to obtain certain assurances of value of the target entity assets prior to consummating such a transaction, with further assurances that an audited statement would be provided within 60 days after closing of such a transaction. Closing documents relative thereto will include representations that the value of the assets conveyed to or otherwise so

transferred will not materially differ from the representations included in such closing documents, or the transaction will be voidable.

(b) Liquidity and Capital Resources. At June 30, 2000, the Company had minimal cash or other assets with which to conduct operations. There can be no assurance that the Company will be able to complete its business plan and to exploit fully any business opportunity that management may be able to locate on behalf of the Company. Due to the lack of a specified business opportunity, the Company is unable to predict the period for which it can conduct operations. Accordingly, the Company will need to seek additional financing through loans, the sale and issuance of additional debt and/or equity securities, or other financing arrangements. Management of the Company and its counsel have advised that they will pay certain costs and expenses of the Company from their personal funds as interest free loans in order to facilitate development of the Company's business plan. Management believes that the Company has inadequate working capital to pursue any operations at this time; however, loans to the Company from management and its counsel may facilitate development of the business plan. For the foreseeable future, the Company through its management and counsel intend to pursue acquisitions as a means to develop the Company. The Company does not intend to pay dividends in the foreseeable future. As of the end of the reporting period, the Company had no material cash or cash equivalents. There was no significant change in working capital during this quarter.
