PART I. FINANCIAL INFORMATION

ITEM 1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

ACCOUNTANTS' REVIEW REPORT

Board of Directors Roaming Messenger, Inc.

We have reviewed the accompanying consolidated balance sheets of Roaming Messenger, Inc. and Subsidiary as of December 31, 2003 and June 30, 2003 and the consolidated statements of operations for the three months and six months ended December 31, 2003 and 2002, and cash flows for the six months ended December 31, 2003 and 2002. All information included in these financial statements is the representation of the management of Roaming Messenger, Inc.

We conducted our reviews in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

As discussed in note 1, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments to the financial statements that might be necessary should the Company be unable to continue as a going concern.

ROAMING MESSENGER, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2003

1. BASIS OF PRESENTATION AND GOING CONCERN

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all normal recurring adjustments considered necessary for a fair presentation have been included. Operating results for the six-month period ended December 31, 2003 are not necessarily indicative of the results that may be expected for the year ending June 30, 2004. For further information refer to the financial statements and footnotes thereto included in the Company's Form 10K-SB for the year ended June 30, 2003.

The accompanying financial statements have been prepared on a going concern basis of accounting, which contemplates continuity of operations, realization of assets and liabilities and commitments in the normal course of business. The accompanying financial statements do not reflect any adjustments that might result if the Company is unable to continue as a going concern. The Company's losses, negative cash flows from operations and the working capital deficiency indicate that the Company may be unable to continue as a going concern. The ability of the Company to continue as a going concern and appropriateness of using the going concern basis is dependent upon, among other things, improving cash flows from operations, and/or additional cash infusion.

2. CAPTIAL STOCK

The weighted average number of shares used for the basic and diluted loss per share for 2002 has been restated to reflect the recapitalization transaction that occurred in April 2003. The weighted average number of shares used for the calculation of diluted loss per share is the same as the one used for the basic loss per share. The inclusion of any potential shares to be issued would have had an anti-dilutive effect due to the Company generating a loss.

3. STOCK OPTIONS AND WARRANTS

Stock-Based Compensation

The Company accounts for employee stock option grants in accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees and related interpretations (APB 25), and has adopted the "disclosure only" alternative described in Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, amended by SFAS No. 148 Accounting for Stock-Based Compensation-Transition and Disclosure.

SFAS No. 123, Accounting for Stock-Based Compensation, requires pro forma information regarding net income (loss) using compensation that would have been incurred if the Company had accounted for its employee stock options under the fair value method of that statement. Options to purchase 865,994 and 0 shares of Roaming Messenger, Inc. were granted during the six months ended December 31, 2003 and 2002, respectively. The fair value of options granted, which have been estimated at \$8,275 and \$0, respectively, at the date of grant were determined using the Black-Scholes Option pricing model with the following assumptions:

	2003	2002
Risk free interest rate	3.18%-3.27%	N/A
Stock volatility factor	0.01	N/A
Weighted average expected option life	4 years	N/A
Expected dividend yield	None	N/A

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY STATEMENTS

This Form 10-QSB contains financial projections, synergy estimates, and other "forward-looking statements," as that term is used in federal securities laws, about Roaming Messenger, Inc.'s financial condition, results of operations and business. These statements include, among others:

- o statements concerning the potential benefits that Roaming Messenger, Inc. ("RMI" or the "Company") may experience from its business activities and certain transactions it has completed; and
- o statements of RMI's expectations, beliefs, future plans and strategies, anticipated developments and other matters that are not historical facts. These statements may be made expressly in this Form 10-QSB. You can find many of these statements by looking for words such as "believes," "expects," "anticipates," "estimates," "opines," or similar expressions used in this Form 10-QSB. These forward-looking statements are subject to numerous assumptions, risks and uncertainties that may cause RMI's actual results to be materially different from any future results expressed or implied by RMI in those statements. The most important facts that could prevent RMI from achieving its stated goals include, but are not limited to, the following:
 - (a) volatility or decline of the Company's stock price;
 - (b) potential fluctuation in quarterly results;
 - (c) failure of the Company to earn revenues or profits;
 - (d) inadequate capital to continue or expand its business, inability to raise additional capital or financing to implement its business plans;
 - (e) failure to commercialize its technology or to make sales;
 - (f) changes in demand for the Company's products and services;
 - (g) rapid and significant changes in markets;
 - (h) litigation with or legal claims and allegations by outside parties;
 - (i) insufficient revenues to cover operating costs.

There is no assurance that the Company will be profitable, the Company may not be able to successfully develop, manage or market its products and services, the Company may not be able to attract or retain qualified executives and technology personnel, the Company may not be able to obtain customers for its products or services, the Company's products and services may become

-9-

obsolete, government regulation may hinder the Company's business, additional dilution in outstanding stock ownership may be incurred due to the issuance of more shares, warrants and stock options, or the exercise of outstanding warrants and stock options, and other risks inherent in the Company's businesses.

Because the statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by the forward-looking statements. RMI cautions you not to place undue reliance on the statements, which speak only as of the date of this Form 10-QSB. The cautionary statements contained or referred to in this section should be considered in connection with any subsequent written or oral forward-looking statements that RMI or persons acting on its behalf may issue. The Company does not undertake any obligation to review or confirm analysts' expectations or estimates or to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of this Form 10-QSB or to reflect the occurrence of unanticipated events.

CURRENT OVERVIEW

Roaming Messenger, Inc. (the "Company") is a Nevada corporation formerly known as Latinocare Management Corporation ("LMC"). The Company originally incorporated in Colorado in July 1983. Effective April 1, 2003, the

Company completed a Plan and Agreement of Reorganization with Warp 9, Inc., a Delaware corporation ("W9") and effective June 30, 2003, the Company completed a second Plan and Agreement of Reorganization with W9 (collectively the "Reorganization") resulting in W9 becoming a wholly owned subsidiary of the Company. Subsequent to the Reorganization the Company changed its name to Roaming Messenger, Inc to reflect a new product developed by W9 prior to the Reorganization. Prior to the Reorganization with W9, the Company had no tangible assets and insignificant liabilities. The operations of W9 became the business of the Company after the Reorganization.

The Company has developed a proprietary wireless messaging solution called "Roaming Messenger" for delivering real-time information for homeland security, emergency response, military and enterprise applications. Unlike solutions based on existing messaging technology such as e-mail, text messaging, and voicemail, Roaming Messenger packages time-critical information into "smart courier" messages. These messages automatically roam throughout the wired and wireless worlds - from mobile devices to desktop PCs to central servers - tracking down people and obtaining responses in real-time.

The Roaming Messenger product line is a new line and the Company has established a number of strategic partners in several vertical markets for beta testing and pilot programs. Roaming Messenger is gaining the most traction in the Public Safety and Emergency Response industry where advanced real-time wireless messaging is a valuable addition to existing solutions. Roaming Messenger is primarily distributed via a Value-Added-Reseller ("VAR") or private labeled model where it is an add-on to existing solutions such as personnel scheduling, threat detection and response, and computer aided dispatch. The Company intends to focus on the Public Safety vertical market over the next few quarters by establishing more channel partners and VARs.

-10-

In facilitating longer term strategic plans, the Company is engaged in early developments in the enterprise application sector as well. Current opportunities include Automated Process Control, Mobile Field Service, Remote Monitoring, Mobile Commerce and Mobile Entertainment applications. All of these are large market opportunities for the Roaming Messenger technology within the next 2 to 5 years.

The Company conducts most of its operations in the wholly owned subsidiary, W9, and financial statements for the Company are consolidated for reporting purposes. W9 currently offers two primary web-based e-commerce software products, Internet Commerce System and Email Marketing System, to the catalog and retail industry. Customers of these e-commerce products pay a recurring monthly fee for their access and use. A majority of the total revenues are recurring monthly revenue from e-commerce products. Every new customer is expected to increase the topline for at least several quarters. From an operational perspective the e-commerce product line is already profitable. Revenues from the past quarters has been relatively stable, the Company anticipates steady growth from the e-commerce products operation as a profit center.

The Company will continue to fulfill its working capital requirements through the private placement of common stock. A majority of the investment proceeds will be allocated for the sales, marketing and technical development of the Roaming Messenger product line. The Company believes most of its rapid growth revenue and shareholder value will come from the Roaming Messenger product line as the wireless industry continues to grow.

RESULTS OF OPERATIONS FOR THE THREE-MONTH PERIOD ENDED DECEMBER 31, 2003 COMPARED TO THE SAME PERIOD IN 2002

Total revenue for the three-month period ending December 31, 2003 was \$193,176 as compared to \$225,287 for the three-month period ending December 31, 2002. The difference is primarily the result of an anomalous increase in one-time, non-recurring, professional services projects in the quarter ended December 31, 2002. A majority of W9 customers operate in the retail sector and do not usually purchase mission critical products and services during the holiday season. The quarter ending December 31 is generally the slowest quarter of the Company's fiscal year.

Operating expenses increased from \$235,219 for the three months ended December 31, 2002 to \$356,943 for the three months ended December 31, 2003. Primary sources of increase in operating expenses include: an increase of \$12,693 in Research and Development expenses, \$12,000 of stock compensation given to employees, and an increase of \$113,691 in Sales and Marketing expenses and General and Administrative expenses which include new expenses associated with being a public reporting company. Operating costs are expected to exceed revenue in the foreseeable future as the Company continues to increase sales and marketing efforts as well as increased staffing.

(\$39,010) for the three months ended December 31, 2002.

LIQUIDITY AND CAPITAL RESOURCES

The Company had cash at December 31, 2003 of \$952,404 as compared to cash of \$57,408 as of June 30, 2003. The Company had a net working capital (i.e. the difference between current assets and current liabilities) of \$606,866 at December 31, 2003 as compared to a working capital deficit of (\$316,436) at June 30, 2003. Cash flow utilized by operating $activities\ was\ (\$241,723)$ for the six months ended December 31, 2003 as compared to cash utilized for operating activities of (\$87,066) during the six months ended December 31, 2002. Cash flow used in investing activities was (\$16,196) for the six months ended December 31, 2003 as compared to cash used in investing activities of (\$1,081) during the six months ended December 31, 2002. Cash flow from financing activities was \$1,152,915 for the six months ended December 31, 2003 as compared to cash provided by financing activities of \$58,372 during the six months ended December 31, 2002. For the six months ended December 31, 2003, the Company's capital needs have primarily been met from the proceeds of a series of private placements of common stock made by the Company. See "Part II - Item 2. Changes in Securities."

The Company will need to obtain additional operating capital to permit continuing execution of its business plan. The Company anticipates that it will obtain the additional working capital it requires through the private placement of common stock to domestic accredited investors pursuant to Regulation D of the Securities Act of 1933, as amended (the "Act"), and to offshore investors pursuant to Regulation S of the Act. There is no assurance that the Company will obtain the additional working capital that it needs through private placement of common stock. The Company has incurred operating deficits since inception, which are expected to continue until its business model is fully developed.

ITEM 3. CONTROLS AND PROCEDURES

The Company's Chairman, Chief Executive Officer, and Chief Financial Officer has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this quarterly report and, based on this evaluation, has concluded that the disclosure controls and procedures are effective.

There have been no changes in the Company's internal control over financial reporting that occurred during the Company's first fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
